STUART HALL

Professional Background

Stuart’s practice focuses on energy, environment, transportation and infrastructure issues. Stuart worked for seven years in the office of U.S. Representative Richard H. Baker (R-LA). As the Legislative Director, Stuart staffed the Congressman on Transportation and Infrastructure Committee issues and handled all appropriation and project requests.

As a Senior Legislative Assistant, Stuart assisted with hurricane recovery and response in the aftermath of Hurricanes Katrina and Rita, and was particularly involved with communities that hosted evacuees. Stuart also assisted the Congressman with negotiations during the House-Senate conference on the Water Resources Development Act of 2007. Stuart was responsible for drafting and managing three pieces of legislation that were signed into law during her tenure on the Hill.

Experience

- Represented a large coalition of rail-dependent shippers in an ongoing effort to achieve pro-competitive federal legislative and regulatory transportation policy.
- Represents a hydroelectric facility jointly owned by the states of Texas and Louisiana in efforts to obtain a federal land exchange.
- Assists a trade association with legislative fly-ins in an ongoing effort with respect to federal taxation issues.
- Represented a large public redevelopment project with respect to energy efficiency and federal funding.
- Represented a trade association advocating for improvements to federal pipeline safety legislation.
